

## 10-30M CAMERA PROBE

The Camera Probe is designed to fit into 15mm Pipe ID and can travel up to 30M in a Pipe delivering high resolution video to be seen on the CE-vCam Modular System and in turn record onto hard drive. The Camera Head incorporates 4 x Daylight Wavelength LEDs which are fitted onto a Chalco specially designed Cable which has enough rigidity to be able to deploy the Camera to a 30M distance. The Cable and the Camera Head measures 7.9mm OD. Video and JPEG images can be transferred from the Hard Drive to the USB Dongle to be given to the Client.
